

Saturday June 15th 2024

Dear Pope Francis

I have been coming to Lourdes now since 2008 when Mary called me. A long story.

I ended up serving in the baths from 2012-17. I have just signed up to serve again this year.

I'm not Catholic. My dad is.

The reason I'm writing to you is that I started to notice men masquerading as women in the women's section of the baths in 2014. They were usually Scottish.

There was also a man pretending to be a female doctor in Lourdes in 2015. Also from Scotland.

Yesterday evening I noticed a French transvestite nun in the cafe I was having a drink in after procession. He was putting that awful squeaky "woman's" voice on that they do, and surrounded by obsequious women.

I also noticed, on Twitter, a well-known and extremely litigious and vexatious transvestite from the UK who has made relentlessly legal attacks on women posting his arrival at Lourdes. I saw him later in a medical servers outfit.

Many many of these men have sexual abuse histories, particularly of minors, including this one.

Pope, the rise in numbers of men pretending to be women is due to the porn epidemic alone.

They become so addicted to violent and degrading porn, needing more, and worse and worse, that their mentally ill minds begin to seek their own selves as "women" for subjects of their lust.

These men find ways to get close to vulnerable women and children as part of their fetish.

It seems we have unilaterally decided that these predominantly white, western, wealthy, privileged men who need psychological help should be pandered to.

They have nothing to do with the gay community.

I'd like you to support #PartyOfWomen in the UK who is raising awareness of the problem.

I'd also like you to do something about this in Lourdes where EXTREMELY vulnerable people are now targets for porn fetishists.

Mary has undoubtedly given me the task of being Her voice with regards to this.

I attach a flyer for my political run in the election.

Please help protect your deeply vulnerable congregation.

Thank you.
