15th March 2024
MADRID

Dear mum, dad, brother,

So, I moved back to Denia after holidays, in Feb 2022 and got back into the conservatory to study the piano again.

I remember going to the open day in April and the teachers Paqui + Joan Carles not very pleased to see me. But I passed anyway and got in again.

Domingo ^{Lopez Carles} saw me probably in May / June sometime and he was not happy to see me.

It turns out, he gave everyone the OK to let me back in but pretty much immediately began his campaign of harassment, intimidation, stalking, in particular cyber stalking/bullying.

What I only realise/recently is that he got access - him and his associates - to my home network through the router and started watching my every move through the camera and seeing everything I did/do online.

I was not aware of this until August 2023, more than a year after he will have gained access. I told you how he threatened me in 2014 maybe you remember what he said. Anyway it turns

but his family is pretty criminal, very powerful, very entrenched, and he can literally do whatever he likes and no-one can complain, and this includes hacking women he doesn't like's personal networks for voyeurism primarily and then robbery probably, if you have anything which I do, ^{I believe new his intentions with me in 2014 were extremely sinister + with the house in mind.}

Of course he still acts totally inappropriately with the schoolgirls, probably even more so now than before, as they do when they keep getting away with it.

Anyway, aside from the hacking which I was not aware of until Aug 23, I felt the bullying commence pretty much immediately in Oct 22, through comments and just a bad, bad feeling all the time. My piano teacher Maria was ^(DOMINGO'S SERVANT) very erratic and Mercedes - strangely back in

2022-3 after being in yr 1/2 in 2015-6 with no improvement at all - eating up half of my class with hers, then and 1/4 with chatting so

I only had 10/15 minutes each week. And at one point Maria explains to me that Domingo had done her a favour the year before by standing in for her after there was an "accident" in her car + she had to miss something important and I realize now she was telling me this unnecessary info to explain why she was not on my side.

Anyway, we were supposed to have a Chamber music class that year but there was no teacher.

And then out of the blue a trumpet ~~teacher~~ ^{teacher} turns up at the end of November and he is very nice looking and I fancied him immediately but I also felt completely set up and that Domingo was behind everything that happened after that — and I was right.

I'm not going to go into it here. You can read the whole ^{story} on my Twitter account in Highlights. Go to @1FRQVN on Twitter or

TWITTER.COM/1FRQVN

Anyway so it turns out the trumpet teacher ~~is~~ VIDAL SASTRE SANCHEZ HERNANDEZ and Domingo ~~and~~ are both pretty monstrous men and spend a lot of their time terrorizing women + girls and for the last nearly two years in Denia that has been me.

It became clear to me that I was the centre of everyone's attention probably last August time when they made it obvious they had control of my laptop and phone. I did not know who I could trust so I complained to the Generalitat about Domingo's behaviour, three or four times, and they ignored ~~me~~ ^{me} completely even though I was concerned for my safety at the conservatory + in the town.

(4)

Things that I have suffered:

- Followed around town and beyond (phones ^{tracing})
- Attached ^{Amnesia} at the conservatory on June 12th 2023
- Stones thrown at me from cars.
- Car vandalized in Oct (first time I complained)
- Gypsies singing songs related to all events at me, to me, in the tunnel of Denia.
- Teachers + staff at the conservatory knowing extremely personal health matters I only ever told Google
- Cyberstalking on Twitter → and this is the main reason I'm writing
- The cyberstalking has become so egregious I believe you all could be in danger of phishing, or fraud, or whatever.
- They post messages about my bank balance, about payments I have made; exact figures & to whom.
- There is a very public WhatsApp group that all the teachers + people from the community are members of which disseminates my tweets (not all, filtered), my WhatsApp messenger I ^(this is criminal) sent to friends, videos + pictures of me that are VERY private including half-naked pics + sexual things.
- ~~where~~ I believe VIDAL / DOMINGO control this WhatsApp group.
- It got so threatening at the conservatory this week I came to Madrid today to get away from it and report them to the Guardia Civil.
- About 3 weeks ago I was threatened on Twitter + I went to the Policia Nacional in Denia + they refused to even investigate!!

(3)

It was my piano concert this week and it was another extremely threatening event. Every piece name related to this matter and a woman tuned up who looked (had dressed up to look) exactly like Horraine Blackbourn + sat directly behind me + stared at me ^{!! gasped it was so shocking!!} at the end. You may remember me telling you Horraine had committed suicide in 2021 the week I went there for a holiday. Whenever I ask people what happened they mention her macho boyfriend. One of the many fake Twitter accounts that cause me harassment is called HORRAINE TORTURED WHISTLEBLOWER + I believe what's happening to me ^{now} is what happened to her. MISOGYNIST TERROR NETWORKS

So another thing I need to say is that if anything happens to me it will be 100% suspicious.

I am not depressed anymore, at all. In fact, being completely alone and away from people who think women + girls are the problem has been unordinately healing. And there is another curious irony to this tale which is the man, VIDAL, who was sent by DAMINGO to destroy me and took great pleasure in doing so, in fact, is... a person who shares a very profound connection with me which I mistook for romantic feelings but I'm not sure what it is now. I certainly have felt what he feels on more than one occasion and there was no question of an extremely powerful sexual attraction between us.

(6)

So the most marvellous irony of it all is that the experience of falling in love with this man brought me completely out of depression. It was like a miracle cure and I have an extremely positive view on the world + the future, even in the midst of a misogynist terror attack by the whole town of Denia!!

So if something happens to me + they make it look like suicide, It isn't!!!

Trying to figure out what to do now. I can't come home, it's too toxic for me, too much hatred of women + girls. I will pray on it.

In the meantime, be very cautious online + on the phone. The twitter hackers pretend to be VIDAL were desperate for me to phone you.

and I think that's so they have your mobile number + they can do phishing. ^{They will have the landline address} They don't

Work has been really good except ^(butties) they don't like the fact I earn so much so they make me lose jobs, I lost 2 jobs last year + I expect serious foul play there. I'm trying to keep my current one as it is extremely good + I just got promoted but men DO NOT LIKE WOMEN DOING WELL DO THEY!!

(7)

I don't know what else to say really just that my life is extraordinary and I hope that all the suffering will be for a good reason. I'm considering returning to the UK to stand with Povey-Porne in her PoW Party of Women because porn world has made life on earth intolerable for everyone and something must be done. So let's see, Maybe we could have a chat sometime. I expect I won't be living in Denia much longer so I can't give you an address but you can send letters to my Postal Service except the last time you sent something you used the parcel address so they just destroy the mail and I didn't receive it.

BTW DAD I saw you on Twitter which was a bit upsetting + I don't think I can cope with any atmosphere that supports the sort of sexual violence we all saw on 7 October so there's that.

But in any case, I love you and think about you with good will at all times apart from when I remember some of the egregious things you have said to me from time to time. But I never have any ill will or hatred towards you. That sort of thing can be very powerful + even destroy people so I advise

(8)

against it. I feel like I am constantly dealing with ~~be~~ the effects of all will toward me and it's most unpleasant.

I hope things go better for you,

With love,

Daughter

P.S. I lost 15/20 kilos due to the stress & also due to a massive healing I had in Thailand during a massage where I seemed to access the experience of being violently sexually assaulted ~~at~~ while unconscious as a child. I think this happened a lot to me and I believe I am on porn sites so I'm going to try & find these films (get someone to find them for me) & go back to the Met with them.

Anyway, since that massive healing my right kidney has been extremely weak, my heart & circulation are still struggling BUT I do not have the CONSTANT FEAR I had with every step I took from when I was 16. It's completely gone! ANOTHER MIRACLE.
