Hello Baroness,

Here is an update on what's been happening to me in Spain over the last years: <https://statement-bhw.pages.dev/>

I believe my life is in danger wherever I am in the world.

Thank you.

Katharine

I believe it is highly likely I will be murdered next week on my return to Spain.

By the criminal gangs that have been terrorizing me in Denia, they are gitano gangs and country-wide/international too. Also they're connected to British criminal gangs. I have blown their cover massively with my police statement (which they have read because they have total access to all my devices, they will be reading this now).

This is the police statement I hope to take to the police in Madrid next week: <https://statement-bhw.pages.dev/>. They can translate with the google function easily.

These gangs have been poisoning and drugging me in my apartment for 3 years, since I moved in. The apartment is set up for live streaming and is undoubtedly used for sexexploitation. I had no idea at all. It's all in my report.

Basically, I foiled their plan and they tried to murder me. Poisoning which would have killed me had my dad not fallen and been taken to hospital and I had to race home to London. The poison has blinded me a little. I suspect it is methanol.

What I didn't realise was that they have been adding it to my toiletries, food, anything I take away with me, so my eyesight was deteriorating badly even though I have been in Thailand since early November. I stopped using my products and my eyes got better although my sight has deteriorated massively and I got a diagnosis of PACS.

I have basically been drugged and poisoned for 3 years. A lot of aphrodisiacs too, it has been overwhelming.

I only just started to think straight again 3 weeks ago!

They knew about my grooming gang history from the English women out there (murderers, I knew who they were when I met them in 2006, they may have even known then and been targetting me at that time), they connected with the original pedophile grooming gang in North London, got hold of the child rape porn I was in from 1989, and so were planning a "reenactment" of some sort, which didn't work out very well for them, but they managed to get me masturbating with the aphrodisiacs I was ingesting.

They have made some money on me and paid people in the town for their services in the conspiracy.

I believe they always intended to murder me. Whether by my own suicide from the sexual assaults they were planning against me, and the relentless gang stalking, threats to my life at the conservatory, drugging, etc ... and if not by their own hands.

They upped the poison dose massively before I left for London to be with my dad. I believe it was to kill me.

While in Thailand I managed to have the wit to get the whole story written down and published it on a private network: <https://statement-bhw.pages.dev/> with a lot of documentary evidence added.

I have been to the police twice in Spain. They are spectacularly disinterested.

I have reached out to the Metropolitan police Lauren Ott specifically, I'll cc-her in here. I get no reply.

I have contacted embassies, the foreign office, newspapers, interpol, NCA, everyone ...

No-one replies to me.

Thank you for the reply <3

Katharine

Dear Katharine,
You have a highly fertile brain with high intelligence.
Such a brain too easily goes over the top and conjures up massive imaginations which are sometimes unpleasant for the thinker.
Such times are not easy for someone of your very high intelligence to control. Yet uncontrolled the worries become unhelpful and are probably incorrect.
You were born with this high imagination - a great gift - and I think it needs fastening down as you can then use it productively on art,music and dancing.
Such brains as yours are brilliantly creative but they also have the capacity to dive in the wrong direction.

I suggest you see the doctor regularly,take whatever pills they suggest and take up music and dancing lessons at the same time.

That will work.

Please contact me once you have seen the doctor,started on the pills and begun music or dancing but not before.

Thank you!
Emma Nicholson

I guess the only way to get any actual justice for Women and girls is to be murdered.

The witch is only innocent when she drowns right?

I'm gonna have to go public.

And, in fact, due to the methanol or whatever they have been using, I have about 50% or less cognitive ability than I had 3 years ago.

So my brain is not fertile at all. I can't play chess anymore. I was really good. I struggle with simple tasks. I won't be able to work again to the standard I was. My sight is deteriorating. I could go blind at any moment. I reported all the symptoms of methanol poisoning to the homeopath via email which is included in my report, everything is included in my report. You're basically saying I'm hysterical. It only went on so long because I'm not hysterical.

The woman they targeted before me became hysterical and left the flat immediately.

This is misogyny Baroness. I don't expect this from you.

While I was being poisoned, up until 3/4 weeks ago, it was impossible to think straight, I had to make an enormous effort.

I can't believe everyone is ignoring this.

My car is at the airport. They managed to add substances to the air vents.

I have things to say I haven't said yet because I know they're reading this.

I will say I realize it could be the Spanish police who murder me now, or the English even, given their involvement.

Right, that's me not contacting you again.

Thanks for the help, not.
