Application for review

Katharine Murphy

Ref – X/20/708456-TM6A

The applicant has appointed Switalskis solicitors to pursue her review and (if necessary) appeal of the refusal of her CICA application.

The applicant firstly seeks permission to have her review application considered out of time. The ground for this is that she has suffered from confusion, anxiety and depression since the decision to refuse her application. She has suffered exploitation. Police failing to prosecute the offenders has led to her losing faith in authorities. She views the CICA as an authority especially since she has been refused help by them after countless times of asking for help from the police and other arms of the state. In the last 5 years she has lived in Northern Ireland and has been subjected to harassment which has been a major concern for this already vulnerable woman, so it is understandable that having her CICA case reconsidered was not at the forefront of her mind.

Ms Murphy's ground for a review of the original application (which was refused for delay) is that after the abuse she has suffered with anxiety and depression, has been suicidal multiple times and has felt unable to talk to anyone in authority about her case. Avoidance is a recognised symptom of PTSD, and it is a reasonable assumption that she would have developed PTSD symptoms from the attacks she suffered as set out in the statement the police officer made (attached). It is noteworthy that the police officer supported Mr Murphy's account and found her evidence to be consistent. It is likely that criminal offences were committed against her by the men she described when she was a child in North London in 1989.

For these reasons we believe the application for review should be allowed and an award of compensation should be made to Ms Murphy.

Katherine stated that in August 1989 she had finished school and was working at H Samuel. It was the rave scene and she was smoking pot and taking LSD and drinking alcohol. One Monday in August 1989 she went to Camden Palace with [REDACTED] (surname unknown). Think [REDACTED] lived in Hackney. Took acid with [REDACTED] in the club. I was tripping. I was looking at a book, mathematical designs when I met [REDACTED]. He run up to me and told me that he had raped every girl in this place and that he would rape me. He freaked me out. I was with my friend [REDACTED] After the club, me, [REDACTED] [REDACTED] and [REDACTED] went for a drive in [REDACTED] car- a burgundy VW golf I believe. We were high, smoking pot. [REDACTED] and [REDACTED] were in the front and I was in the back in-between [REDACTED] and [REDACTED] [REDACTED] was saying scary things, he said he was HIV positive. He scared me and I didn't have good feelings about him. I felt safe with [REDACTED] We had parked up and Winston was pretending to sleep. [REDACTED] asked me for a blow job and I felt very uncomfortable. I didn't want to but I remember touching his penis with my hands in the back of the car. I was dropped off and we arranged to meet at Arena nightclub that Friday. I think [REDACTED] may have called me during the week to confirm.

Friday: It was my last day working at H Samuel. I had been paid £100. I bought some new trainers for £80 I think and had £20 left. I met [REDACTED] in the line and I bought some LSD for us both I believe. We took it in line waiting to get in. He didn't have any money so I paid for him to get in and I remember him mentioning something about a bag of pills and how he would pay me back once we were inside. Once inside [REDACTED] disappeared. [REDACTED] was there and was talking to me. Didn't see [REDACTED] in there until the end when I tried to talk to him but he pushed me away. This was the last time I saw [REDACTED] and I believe that he had sold me to [REDACTED] for the bag of pills.

I remember being anxious with [REDACTED] but somehow he gained my trust. Outside the arena I was high and was worrying about how to get home. [REDACTED] was there with another guy in a car. I got in with both of them and sat in the passenger seat. The driver looked like a cartoon criminal, that's how I remember him. His name was [REDACTED] We drove to South Tottenham, to a club in Crowland Road. Somehow I was in the toilets with Winston alone. I didn't know what we were doing but he said that a girl called 'mental' was coming. Two females arrived, both white girls. They were concerned about me and repeatedly asked if I was okay.

We walked back to [REDACTED] house. We were talking like friends and he was nice. When we arrived at his house he locked the door and had the keys somewhere. No-one else was at home, his mother was in Jamaica. We went up to his bedroom which was on the second floor at the back of the house. I sat on a chair in the corner of his bedroom. He was on the bed and that's when he switched, he became the monster. I was threatened with violence and he told me to come to him. He took off my clothes and vaginally raped me. I hadn't agreed to the sex. I was so confused how he was nice one minute, monster the next. He then gave me an ecstasy pill and said that we will have sex properly now. We had sex for hours, felt like I had agreed to it but I hadn't. I never agreed to any sex with

██████ I was so terrified of him. I think he came and then after he held me tightly and again I think he pretended to sleep. The next day, around 2pm I asked him to open the door so I could leave. He asked for my phone number and I found myself giving it to him.

Sunday: ██████ called and asked me to meet him. We met at Finchley Central. I think we walked to Victoria Park. Don't remember much about that day. I think it was that day that we went to a club in Shaftsbury Avenue. Don't remember much about that.

Tuesday/Wed: ██████ called and asked to meet. Thought we were going to the park. He collected me with Leon at around 2pm. They passed me a drink, possibly a Fanta. I felt fine before the drink but afterwards started to feel hazy and under the influence. We went to Plevna Crescent in Tottenham. We pulled up and I remember a crazy guy coming out of a house. He scared me but somehow I ended up in the house with this man, 5 others and ██████ and ██████ I remember before I went in that a woman ran up to me and told me not to go in. As I went in my feet come off the floor and I was carried up some stairs to a lounge area. Maybe it was a maisonette. I don't know who the property belonged to. My clothes were taken off and there were six men sitting on chairs in a circle. I was passed around, lifted under the armpits by them all and they vaginally raped me. I believe the last one sodomised me although I cannot be sure. I think this because of something Winston said.

Sus 1: Black male

Sus 2: Black male, very black skin, big man. He used violent thrusts and hurt me

Sus 3: Black male

Sus 4: White male with very pale skin and dark black hair. He looked Irish, late teens, early 20's. He couldn't look me in the eye. I felt that something racist was going on and was angry with him.

Sus 5: Black male

Sus 6: Crazy guy (at the front of the house) black male, skinny, shaven head, much smaller than ██████ F506-7. He was giving a running commentary whilst the others had sex with me. I remember thinking that it was to make me think that the worst was yet to come.

██████ watched and laughed. I went to the bathroom afterwards and then left. I do not remember anything else. I cried and wailed whilst this happened.

Memories:

1. Waking up in ██████ house. His friend was sitting in the corner. Don't understand why he was there.
2. Waking up and there was a male with a large black case in the corner
3. Waking up and finding Winston's 5 year old nephew next to me on the bed
4. Remembers being in ██████ bed and seeing his father coming up the stairs grinning

Friday after: Went to arena with friends. Saw ██████ outside. He called me over. He had been punched in the mouth. His sister's boyfriend was driving the car, he was an Asian male. He and ██████ swapped at one point and ██████ was driving some of this night. I was in the passenger seat, the Asian guy, ██████ and ██████ were in the back. Parked up and a woman called ██████ approached. She put a pill in her mouth and leaned in and kissed ██████ This was a pivotal point for me and we were supposed to be going to a party. I decided then that I would not be going to a party with these people. I waited in the car. I find it disturbing and was worried about orgies. ██████ was supposed to be with me and was kissing this girl.

Soho incident: Met [REDACTED] and travelled to Soho to meet [REDACTED] who was a prostitute. We travelled to her flat in Catford. The details are sketchy but they wanted me to go clubbing but I didn't want to leave Winston, he was the lesser of two evils. I believe we were doing drugs in the house.

Sep 1990:

[REDACTED] had come to my house. My father was definitely at home. He tried to have sex with me in my bedroom however I didn't let him. We left together and walked to [REDACTED] address, her mother Sonia definitely heard me tell [REDACTED] that he had tried to rape me again. Shortly after [REDACTED] went to prison. There were letters back and forth and I went to visit him. That was the last time I saw him. People: My friends were [REDACTED] [REDACTED] [REDACTED] Friends on Facebook with [REDACTED] and [REDACTED] [REDACTED] also was present.

I believe I babbled incoherently at the time to my friends about what was going on with [REDACTED] but I started to develop traits of his to gain control. Never told anyone at the time until the police in 2006. Went to Whittington hospital for a HIV test with the girls the year after this happened. Never seeked medical help for what had happened.

**

I had met [REDACTED] about a month before the first incident at a house party. We had consensual sex a few times and I had stayed at his house and met his mother. The last time I saw him was in the arena nightclub. I called him after this to try and get my money back but his mother wouldn't put him on the phone.
