Dear Katharine,

I have submitted the attached application.

It would be helpful if you could send me a psychiatric report which you may have had in the last few years. I assume you have suffered from poor mental health, and a report has been put together in the last few years.

Yours sincerely,

David

Thank you.

No psychiatric report since December 2016/January 2017 when I returned to the UK from Denia depressed and suicidal.

My father had been invited to be part of the sedate-and-rape gangs in Denia (Lopez-Canos) when he visited me on his own in 2013 and 2015/16 - and he even told my cousin Igor to visit Denia because something amazing was going on there at my apartment, really amazing, he must visit - and my cousin brought his young family there for a holiday when the kids were 5 and 7 I think at the time!

My dad brought my mother one time April 2016 who they also sedated and raped at the hotel they were staying at, and in my bed with me when we took a nap at my apartment the following day, for their lucrative incest-porn genre - she's in massive denial on that.

What had happened with dad (along with the constant sedating-and-raping by the men of the town, probably 3 or 4 times a week at my home in 2014-2016) depressed me immensely and I was suffering suicidal ideation without knowing why at the time (cos it was my dad and not just a bunch of idiots!). Sedated-gang-rape has this very well

known effect on victims, it caused me a massively debilitating PTSD for ~35 years from 1989 till early 2023 when it healed completely, miraculously.. another story.

Without conscious awareness of what was really happening in Denia, I put my state of mind down to past sexual trauma - it was the only explanation - and rape-gang leader Winston May of 5 Ritches Road N15 (who they wheeled out when I stood for General Election in 2024) and the rape-gangs from 1989 who sedated me repeatedly and filmed me gang-raped by groups of black men for porn - one of the reasons why I'm so famous in porn, let's say the start of it without which I might have had a quiet life - and that's why I went back to the Met police in 2015, but it wasn't enough, but it was good I reopened the case at that time because of all the connectivity with Denia and everything they told us about how they work really closely with the police in the UK, and how they replayed scenes from my police statement of 2015 (which they were reading online while I wrote it - cos I was totally hacked by them and North London's criminal gangs) to terrorize me relentlessly in 2023 (at the music school in Spain) when they got very surprised, and worried, that I was not frightened by them and they could not terrorize me in the way they normally do to their victims. I just kept turning up every day to practice the piano and for my music classes! So they got worse and worse, and I kept turning up to classes, and eventually a group of them suffocated me close to death in my own home while I was sedated, in my bed, an action which made me leave the conservatory in fear for my life the day after.

The Barnet NHS psychiatrist based at Barnet hospital who saw me on my return in 2016/2017 seemed to consider me reasonably sound of mind - I explained the sexual trauma history from 1989 - and he prescribed some meds and told me about the latest US-based trauma healing practices I should investigate, which I did, Levine, van der Kolk, eventually I found Stephen Terrell.

I took some meds for a while but I did not like how they made me feel, and my anxiety was through the roof, even worse than before, so I quit them probably April 2017.

Instead, I became very addicted to valium in 2017 that my mother gave me, she was/is receiving it by Royal Mail bought off the Internet - the gangs again, could be anything in those pills...

I was taking tiny amounts just to get out of the house and in January 2019 I tipped into another suicidal depression - there were also gang-orchestrated triggers going on around me for suicide, online manipulation, massive outrageous bullying at work and at home which I believe are related back to the Adams porn-empire and the Denia gangs - they wanted me back in Denia quickly basically.

I ended up in outpatient rehab in Finchley Central in 2019 Jan-June which was a pretty extraordinary and very positive experience.

I contacted Steve Terrell (my therapist/therapy practice trainer) at that time for help, but he couldn't see me and suggested instead I come on his trauma healing Transforming Touch courses.

I can describe listening to Steve talk about trauma as feeling like a tuning fork that's finally found it's key and so I decided to sign up to his courses as soon as I could.

I had an NHS psychotherapist at the time at the rehab centre, from January to June 2019, who helped me enormously, just talk therapy, and I realized I had to get out of London and away from the toxicity at home.

I moved to Ireland (Belfast) for two reasons - because Steve Terrell was coming to Cork the following year and I had signed up for his courses - and could just drive down from Belfast. And because Northern Ireland is familiar to me by family (mum mainly) and I did my MSc there in 2003/4 at Queens and enjoyed living there very much at that time.

I was targeted by criminal gangs who were hacking me from the moment I arrived.. I think they were tasked with causing me so much upset in NI - just like my jobs and my brother in London - to make sure I moved back to Denia where they have spy-cam networked apartments all ready and set up for their victims.

So, I only studied Transforming Touch with Steve Terrell from February 2020 till now but I would go every year for a cycle, sometimes two cycles, and it is like getting intense therapy to go on these courses - like 4 months of therapy on one course..... and it is my view that there is no way I would have been able to survive the vicious attacks in Spain if I hadn't have been seeing him regularly at the time - I'd fly to Dublin from Spain to attend his courses.

So you could talk to all those people .. but I can't remember the earlier names, they'll be in my NHS records no doubt.

Hope that's helpful.

Let me know if you need anything clarified.

All the best,

Katharine
